	PATCH	0	0				
	RADICALS (MRC PR10)	9	2				
	UK Genetic Prostate Cancer Study	3	3				
Urology Total		31	13	7%	3%		
Grand Total (b)		108	66				
Grand Total as % CWT (c)		5.7%	3.5%				

- (a) - Cancer Waiting Times data: Number of 31-day treatments by Trust by Disease site for 2008 is from National CWT database
 (b) - Number of grand total does not include the trials that do not count towards NCRN primary target
 (c) - Cancer Waiting Times (all disease) for Airedale is 1894

Do not count towards NCRN Primary Target
Trial is under set up
Study is not run by local team

Recruitment since last PDO meeting (07.07.2010)

Trial title	Disease Site	Screened	Recruited
BBC-NCRN cohort	Breast	1	0
IMPORT-LOW	Breast	2	2
NSCCG	Colorectal	2	0
AML 16	Haematology	1	1
AML 17	Haematology	1	1
FCLL (Sample Study Familial CLL)	Haematology	13	7
BOXIT	Urology	3	1
RADICALS (MRC PR10)	Urology	1	1
UK Genetic Prostate Cancer Study	Urology	2	2
Total		26	15

Do not count towards NCRN Primary Target
Study is not run by Local team.

Total recruitment since April 2010 date (23 August 2010): 66

Mid Yorks Trial Setup Process Complete within the last 6 month

The Above informatino is as accurate as of 23 August 2010.

Trial		Reason for Delay
NSHLG	 	<p>Period of Document Signing: Locked SSI sent for signing on 21/01/2010</p> <p>R&D approval: R&D application was sent as soon as ready but the next available meeting wasn't for a month (8/3). R&D approval has been chased, no reason has been given for the delay.</p>
SUPREMO	  	<p>Draft SSI Completion: The whole time equivalent for each team member was needed before the SSI could be finalised.</p> <p>Period of R&D submission: Study was due to close in June and was put on hold until an amendment to extend the study was approved.</p> <p>R&D approval: R&D approval has been chased, no reason has been given for the delay.</p>
POETIC	  	<p>Period of R&D submission: R&D application has been prepared and is ready to go but there are some ongoing issues regarding pathology. Waiting for these to be resolved before applying for R&D approval.</p> <p>R&D approval: The only issue raised following the R&D meeting was whether pathology was happy and a letter was sent to them asking them to confirm this.</p> <p>Time taken till Trial open: Delay in sign off of CTA and sign off of pharmacy form</p>
Neo-Comice	 	<p>Period of SSI checking: SSI Sent on 16/11/09 to local team and Research Nurse confirmed amendment needs to be made on 26/11/09. YCRN made amendment as request and send the 2nd version on the 30/11/09.</p> <p>R&D approval: No specific reason, could be due to Christmas holiday season and JS was on leave for a couple of weeks in January. R&D approval has been chased, no reason has been given for the delay.</p>
FCLL		<p>Period of SSI checking: Delay due to workload at site and annual leave.</p>

		R&D approval: R&D approval has been chased, no reason has been given for the delay.
UKALL 14	 	Period of SSI checking: Delay due to workload at site and annual leave. R&D approval: R&D approval has been chased, no reason has been given for the delay.
R-CODOX-M/IVAC	 	Period of SSI checking: Delay due to workload at site and annual leave. R&D approval: R&D approval has been chased, no reason has been given for the delay.
PACIFICO		Period of R&D submission: Delay in getting IRMER status update and CV update.
Myeloma XI		R&D approval: Reason for the delay not given, possibly partly due to annual leave. This is a CSP study. R&D approval has been chased, no reason has been given for the delay.
Fragmatic	  	Draft SSI Completion: The whole time equivalent for each team member was needed before the SSI could be finalised. Period of Document Signing: No obvious reason for the delay it was chased a few times. R&D approval: No specific reason, could be due to Christmas holiday season and JS was on leave for a couple of weeks in January. Also there was an issue raised following the R&D meeting regarding the requirement for district nurse support for patients not willing to self administer. Apparently this has now been resolved. R&D approval has been chased, no reason has been given for the delay.
FOXTROT		R&D approval: There are some issues regarding the amount of work for pathology and a bid has been put in for a member of staff. Also St James does not currently have the capacity to administer the chemotherapy at the moment. PI is now hoping chemo can be given at Mid Yorks but this will require some consultation.

ARCTIC	 	<p>Period of Document Signing: SSI sent out on the 18/11/09, YCRN has been chasing up. Not heard from Local team as yet.</p> <p>R&D approval: No specific reason, could be due to Christmas holiday season and JS was on leave for a couple of weeks in January. R&D approval has been chased, no reason has been given for the delay.</p>
